

dS-ready Certification Price List

1 General Terms

1.1 Validity

This Price List is valid as of August 2014. Information about changes and amendments will be announced at www.digitalSTROM.org before they come into effect. The actual version of the price list is always available for download at <https://www.digitalstrom.org/en/alliance/certification/download/>

1.2 Certifications

An amount according to section 2 Basic Prices will be charged for the certification or recertification of a product. This applies to the full certification process regardless of positive or negative test results.

In case of negative test results or recertification of a product, a follow up test based certification of the modified product may result in a reduced certification effort. Based on the amount of reduction, the fee may be reduced by max 50% of the basic price. The reduction shall be determined case per case by the digitalSTROM Certification Department.

2 Basic Prices

All prices listed below are net prices. These net prices are increased by the legally valid value added tax (VAT) or any applicable foreign tax in the statutory amount at any one time.

Foreign taxes and other charges of any kind shall be calculated and strictly borne by the partner member as long as the obligation to deduct tax is officially required by a foreign law. They do not reduce the amount due to the digitalSTROM Alliance.

The partner member is liable for the correct calculation and payment of foreign taxes and other charges and has to indemnify upon first request digitalSTROM Alliance from any loss or damage that result from failure of the party liable for payment to fulfill tax duties.

Payments are due upon receipt of the invoice without deduction.

Certification reports are generally written in English. Translations will be charged according to expense.

2.1 Declaration based Certification

Declaration based Certification € 300.-

2.2 Test based Certification

Test based Certification € 2000.-
